Club doesn't have a website but is on Facebook: Carleton Park Garden Club

Brief description of club's goals, projects, interests, activities, etc.:

"Our meetings give us an opportunity to share knowledge of horticulture, floral design, social events and community projects in Magnolia and news from the Greater Seattle District. Programs expand our knowledge of horticulture and design and may educate us about these elements from cultures other than our own. Friendships blossom within the club through our shared love of gardening. We promote the club's commitment to enhancing community gardens throughout the Magnolia neighborhood. The beautification of these areas of our community is an ongoing Carleton Park commitment."
