Club does not have a website or Facebook page at this time.

Brief description of club's goals, projects and activities: “Our club likes to include horticulture, design, and environment in our meetings., we ask members to provide a design and horticulture each meeting. Some meetings are a tour of a garden or nursery. As projects, we maintain a landscape for a Blue Star Marker at the marina, have a wreath or swag workshop for community attendees, have a yearly design workshop for a local nursing home, and volunteer at the nearby state park. We also have an annual plant sale as our fundraiser to provide money to Chinook District and local gardens.”
