**Brief description of club activities:** “We start in the morning with a brief business meeting and educational program, plus sharing of horticultural specimens and floral designs. At noon we break for a brown-bag lunch, with dessert provided. After lunch we have a speaker or hands-on project. We often have a discussion time, sharing our gardening experiences and asking for advice. We also take field trips to gardens and nurseries. In August we hold a tea party at a member’s garden. We hold a plant sale in the spring.”
