Brief description of club activities: West Sammamish Garden Club was chartered 62 years ago. One of the charter members remains a member—at 100+ years. She no longer attends meeting but we do keep in contact with her. We are a group of experienced gardener's and designers who enjoy continuing to learn and share about the art and science of gardening, floral design and horticulture. We have a variety of programs throughout the year touching on all aspects of horticulture, design,

ecology, and wildlife. The wealth of information these women have to share is a great bonus for any new gardener seeking to learn. We enjoy each other's company and welcome guests to join us any time.
