

Our Mission

WSFGC coordinates the interests of garden clubs to provide education, resources and networking opportunities for its members to promote gardening, floral design, civic and environmental responsibility.

A Message from the President

WSFGC is an active, vibrant nonprofit organization with much to offer current and future members. There are Garden Clubs throughout the state that are welcoming members and want to invite YOU to visit. You can easily contact them through their Facebook pages, websites, or by contacting Membership Chairman Judy Swortz at judyswartz@comcast.net.

Our Garden Clubs' interests are diverse. Some focus on creative floral design, others specialize in horticulture. Many have programs with youth, municipalities, environmental concerns and continuing education. Flower Shows are a favorite, as it allows the members to share their creative talents through floral design, indoor and outdoor gardening, education displays, botanical arts and more! The one common thread among the clubs and members is FUN. If laughter is indeed good for the soul, you can be sure your soul will be in good hands!

Are you an Affiliate? WSFGC is always open to collaborative partnerships. Inside this brochure is a list of valuable benefits Affiliate members will enjoy.
