Brief description of club activities: “Purpose of the club is to gain knowledge in gardening and all activities pertaining to gardening. To participate in civic improvement activities and to encourage arts & crafts pertaining to home improvements. We have diverse programs related to horticulture, design, nature & crafts. We often go on tours. We assist others to meet their 1000 pounds for a plastic Trek bench. Our growing project this year is lasagna pots, and papyrus. We maintain Naches Post Office silk flower boxes and sponsor yard of the month in the summer. We participate in Naches Sportsman Days in September, we make new ornaments and garland each year for the Naches Santa Christmas tree. We have plant sales and give out scholarships. We love our garden club!
